

BIOL 226 Microbial Biology and Diversity
Fall 2009
Lecture and Examination Schedule

Date	Topic
9/1	Ch. 1 Historical Overview Ch. 2 Fundamental Chemistry of the Cell
9/3	Ch. 25 Applied Microbiology
9/8	Ch. 5 Isolation, Nutrition and Cultivation of Microorganisms
9/10	Ch. 2 Structure and Function of Bacteria and Archaea
9/15	Ch. 6 Microbial Growth
9/17	Ch. 6 Microbial Growth
9/22	Ch. 7 Control of Microbial Growth
9/24	Exam I
9/29	Ch. 8 Cellular Energy Derived from Chemicals
10/1	Ch. 8 Cellular Energy Derived from Chemicals, Ch. 11 Regulation
10/6	Ch. 9 Cellular Energy Derived from Light
10/8	FALL BREAK
10/13	Ch. 24 Microbial Ecology
10/15	Ch. 24 Microbial Ecology
10/20	Ch. 24 Beneficial Associations
10/22	Exam II
10/27	Ch. 12 Bacterial Genetics
10/29	Ch. 12 Genetic Exchange
11/3	Ch. 11 Regulation
11/5	Ch. 14 Viruses
11/10	Ch. 12 Microbial Genomics
11/12	Ch. 12 Microbial Genomics
11/17	Ch. 21, 22, 23 Microbial Diversity
11/19	Exam III
11/24	Ch. 15 Basic Immunology

11/26	Thanksgiving Break
12/1	Ch. 14 Human Host-Microbe Interactions
12/3	Ch. 16 Epidemiology
12/8	Ch. 17, 18, 19 Microbial Diseases of Humans
12/10	Ch. 17, 18, 19 Microbial Diseases of Humans
12/17	Final Examination Thursday December 17 at 10:30 a.m.; 130 TCNW
